

High praise for **CASWELL FIRESAFE®** Boston project

Firesafe's U.S. Licensed Manufacturing Partners - **Atlantic Air Products Mfg LLC / McCusker-Gill** - secured this remarkable office & laboratories project in the heart of the Assembly Square Life Sciences Hub in Somerville, Massachusetts with **CASWELL FIRESAFE®** Fire Resisting Ductwork.

Boston-based **McCusker-Gill, Inc.** is a leading HVAC Sheet Metal Contractor...so much so that their President, Kevin Gill Jr., received the prestigious title of **SMACNA 2023 Contractor of the Year** and was specifically commended for promoting technological innovation.

This stunning manufacture & install contract sparked much media interest and rightfully received praise from industry figures in both the U.S. and UK.

"This Caswell Firesafe Fire Rated ductwork install in the penthouse of our project on Middlesex St. is a thing of beauty!"

"This is the best fire-rated ductwork product in the marketplace (we've installed them all, and it's not even close!)"

"That is a work of art and should be in a gallery"

"Looks superb. Don't put the ceiling in"
