

ESTIMATE BETTER.

FastDUCT[®] ESTIMATING SOFTWARE

Are you tired of spending countless hours manually estimating construction costs for your HVAC jobs? Look no further than FastDUCT, the ready-to-go HVAC estimating software designed specifically for commercial and industrial sheet metal contractors. Our comprehensive solution includes all the key features you need for accurate estimates, including a HVAC-specific pricing catalog and labor rates based on industry standards. Plus, with our seamless integration with FastPIPE, producing fast, accurate, and complete price quotes has never been easier.
